

Position: Norwich City FC Academy Internship

Closing Date: End of September 2010

Salary: No Salary

Start date: September/October 2010

Full Description: Norwich City Football Club require an Intern for the 2010/2011 season to support the coaching staff and players in the field of sport and exercise science / strength and conditioning.

This is a non-paid internship position working on a daily basis delivering preparation and performance sessions to our full time scholarship program.

Applicants must have experience delivering to groups and have the commitment and the desire required to add value and benefit to the club.

A degree in Sport and Exercise Science is preferred with qualifications within the field of fitness and performance also preferred. The successful applicant will be required during the week for training sessions and at the weekend for academy matches.

The position will report directly to the academy manager and head of sport science and will receive guidance and support from the head of sport science concerning session content.

Interested applicants should email a CV with a covering letter to Head of Sport and Exercise Science Mike Watts.
