

**Faculty of Health and Social Care
School of Health, Sport & Rehabilitation Sciences
Directorate of Sport, Exercise & Physiotherapy**

**Lecturer in Sports Biomechanics / Strength & Conditioning/
Musculoskeletal Disorders**

Salary £36,532 - £43,622 depending on experience

Ref: 1122111

The School of Health, Sport and Rehabilitation Sciences at the University of Salford (<http://www.healthcare.salford.ac.uk>) is the largest provider of professional training for the Allied Health Professions in the UK. Research in the School is managed through the internationally renowned Centre for Health, Sport and Rehabilitation Sciences Research which boasts a host of international collaborations and enjoy partnerships with many health care organisations, sports clubs, private industry partners, charities and user organisations. The Centre's mission is to undertake leading-edge, interdisciplinary research related to health, health care and to the practice of health, sport and exercise professionals.

The post-holder will be based in the Directorate of Sport, Exercise & Physiotherapy and will contribute to the academic activity of the School and the Directorate by undertaking undergraduate & post graduate teaching, research and innovation activities. The Directorate has a large, friendly and supportive team who possess a wealth of experience in Sport, Exercise and Health & Physiotherapy provisions. We wish to employ an individual who is enthusiastic, adaptable and committed to delivering high quality, student-centred education. The post holder will be expected to develop research activities that are commensurate with the Schools research programmes.

The post-holder's principle role will be to deliver theoretical and practical aspects across one or a number of the following specialist areas, primarily biomechanics, strength & conditioning and musculoskeletal areas. Both undergraduate and post graduate provision occurs within the directorate, hence the post holder would be expected to contribute across this provision wherever necessary. The directorate provides sports science support and movement analysis to professional sports teams, and has developed a number of consultancy services. The post holder will be expected to add to the diversity of expertise across the whole of the directorate, particularly within the Sport & Physiotherapy subject areas. The Human Performance Laboratory has state of the art research technology and the directorate has access to facilities that are world class.

Informal enquiries and visits are welcomed, and can be arranged by contacting Christine Smith (Director of Sport, Exercise & Physiotherapy) on **0161 295 2411**.

Forms to be returned by 3 March 2010.

At the University of Salford we are committed to an inclusive approach to promoting equality and diversity. We aim to have a more diverse workforce at all levels of the institution and particularly welcome applications from people from minority ethnic backgrounds and people with disabilities, who are under-represented in our workforce.
